

FP School 2015

7th ILL Annual School on Neutron Diffraction
Data Treatment using the FULLPROF SUITE

2 - 6 March 2015 Grenoble - France

FPSchool aims to contribute to the training of scientists in the treatment of X-ray and neutron diffraction data.

The school is based on intensive hands-on sessions using the computer programs of the FullProf Suite.

It is intended for PhD students and experienced scientists with a basic knowledge of diffraction techniques and crystallography.

Chair: Prof. Juan Rodríguez-Carvajal
Co-Chair: Dr. Oscar Fabelo
